

Electron Transport System

Krebs/Citric Acid Cycle

Transition Reaction

Glycolysis

Cellular Respiration

Where does it occur?

What are the input molecules?

What are the output molecules?

ATP produced?

Electron carriers used?

Photosynthesis

Light Dependent Reactions

Light Independent Reactions

Where does it occur?

What are the input molecules?

What are the output molecules?

ATP produced?

Electron carriers used?

Comparing Photosynthesis and Cellular Respiration

Cellular Respiration

Glycolysis

Transition Reaction
